

Issue	Role	Goal	Completion	Notes
1	Author	Make posts	Complete	Confirmed data added to database
2	Author	Edit posts	Complete	Confirmed data edited in database
3	Author	posts in simple plain text	Complete	
4	Author	posts in markdown	Incomplete	
5	Author	pull in github activity to stream	Complete	Stream = feed
6	Author	post posts to my stream	Complete	Stream = feed
7	Author	delete my own posts	Complete	Confirmed data removed from database
8	Author	others cannot modify my data	Complete	No option to edit if not your post; manually going to /edit_post/id of a post that's not yours redirects you to feed
9	Author	comment on posts I can access	Incomplete	Can type comment into text field but not being saved to DB
10	Author	browse public posts of everyone	Incomplete	Nothing showing on explore page
11	Author	browse posts of others depending on status	Incomplete	Feed doesn't show Friends posts
12	Author	make unlisted posts, shareable by uri alone	Incomplete	Can make unlisted posts but untested URI sharing
13	Author	posts I create can link to images	Complete	
14	SysAdmin	images can be hosted on my server	Incomplete	Suggest making an Image model for this
15	Author	befriend local authors	Incomplete	images can be saved to server with django but not working for heroku
16	Author	befriend remote authors	Incomplete	No friend model created in DB when accepting request
17	Author	unfriend local/remote authors	Incomplete	
18	Author	server will know about my friends	Incomplete	Should be a way to view friendships, friend requests visible but not friends
19	Author	befriend=follows, both ways = friend	Incomplete	Friend request fulfillment not working
20	Author	know if I have friend requests	Incomplete	Friend request page not updating after accepting request.
21	Author	posts can be private	Complete	
22	Author	posts can be private to another author	Incomplete	
23	Author	posts can be private to friends	Incomplete	
24	Author	posts can be private to foaf	Incomplete	
25	Author	posts can be private to local friends	Incomplete	
26	Author	posts I create can be public	Complete	
27	Author	secure image/post sharing with friends requires auth	Incomplete	
28	SysAdmin	no heavy setup to get posts of authors friends	Incomplete	Friendship aspect not working, need efficient query
29	SysAdmin	limit nodes connecting via authentication	In Progress	
30	SysAdmin	node2node connection can be done with HttpBasicAuth	In Progress	
31	SysAdmin	can disable node2node interfaces for non authenticated servers	In Progress	
32	Author	want consistent identity per server	Incomplete	
33	SysAdmin	host multiple authors per server	Complete	
34	SysAdmin	want to share or not share posts with remote servers	Incomplete	
35	SysAdmin	want to share or not share images with remote servers	Incomplete	
36	Author	user web browser to manage profile	Complete	
37	Author	use web browser to manage/author posts	Complete	
38	SysAdmin	able to add mofiy or remove authors	Complete	??? From an API? From the backend? Easily doable from PGAdmin dashboard I guess
39	SysAdmin	allow users to sign up but require OK	Incomplete	Manual or after verification checks on safe names?
40	SysAdmin	want restful interface for most operations	Complete	
41	SysAdmin	want to add nodes to share with	In Progress	
42	SysAdmin	remove nodes	In Progress	
65	Requirement	Implement webservice according to user stories	In Progress	
66	Requirement	Provide web interface that is RESTful	In Progress	
67	Requirement	provide a web ui that is usable	Complete	
68	Requirement	able to connect to >= 2 other groups	In Progress	
69	Requirement	Video Demo	Incomplete	
70	Requirement	Presentation	Incomplete	

## QA 25/03/2020

Notes
Explore page still empty
How is feed sorted? New posts are appearing the middle of the feed
No indication of logged in status/user
No next/previous buttons
No indication of how many posts in feed, or how many per page etc.
If logged in, should logo go to your feed?
Manual pagination seems to work correctly
Account details still say "Need Data", remove hardcoded strings
why doesn't SAVE button on edit account have floating hand on hover?
entire header logs you out from Edit Account page
Register page needs to show what's mandatory or not
Register page should have github option?
Links from edit post still broken (fixed in my branch)
Markup button does nothing
