Issue	Goal	Completetion	Notes
1	US-1: As an author I want to make posts.	Complete	Confirmed data added to database
2	US-2: As an author I want to edit posts.	Complete	Confirmed data edited in database
3	US-3: As an author, posts I make can be in simple plain text	Complete	
5	US-5: As an author, I want to pull in my github activity to my "stream"	Complete	Stream = feed
6	US-6: As an author, I want to post posts to my "stream"	Complete	Stream = feed
7	US-7: As an author, I want to delete my own posts.	Complete	Confirmed data removed from database
8	US-8: As an author, other authors cannot modify my data	Complete	No option to edit if not your post; manually going to /edit_post/id of a post
13	US-13: As an author, posts I create can link to images.	Complete	
21	US-21: As an author, posts I create be private to me	Complete	
26	US-26: As an author, posts I create can be public (make this the default?)	Complete	
33	US-33: As a server admin, I want to host multiple authors on my server	Complete	
36	US-36: As an author, I want to be able to use my web-browser to manage my profile	Complete	
37	US-37: As an author, I want to be able to use my web-browser to manage/author my posts	Complete	
38	US-38: As a server admin, I want to be able add and remove authors	Complete	??? From an API? From the backend? Easily doable from PGAdmin dashboard I guess
40	US-40: As a server admin, I want a restful interface for most operations	Complete	
65	Implement the webservice as described in the user stories	Complete	
69	Make a video demo of your blog (desktop-recorder is ok)	Complete	
74	implement author profiles via http://service/author/userid	Complete	
79	Friend requests can be made by POSTing a friend request to http://service/friendrequest	Complete	
67	Provide a web UI interface that is usable	Complete	
76	Implement a RESTful API	Complete	
66	Provide a web interface that is RESTful	Complete	
10	US-10: As an author I should be able to browse the public posts of everyone	Complete	Nothing showing on explore page
29	US-29: As a server admin, I can limit nodes connecting to me via authentication.	In Progress	
30	US-30: As a server admin, node to node connections can be authenticated with HTTP Basic	In Progress	
31	US-31: As a server admin, I can disable the node to node interfaces for connections that are	In Progress	
41	US-41: As a server admin, I want to be able to add nodes to share with	In Progress	
42	US-42: As a server admin, I want to be able to remove nodes and stop sharing with them.	In Progress	
71	Follow the guidelines in the example-article.json for the URLs and services	In Progress	
78	Allow users to accept or reject friend requests	In Progress	
83	example-article.json is adhered to.	In Progress	
68	Prove your project by connecting with at least 2 other groups	In Progress	
12	US-12: As an author, I want to be able to make posts that are unlisted	In Progress	Can make unlisted posts but untested URI sharing
73	friend2friend querying via GETs to http://service/author/<userid>/friends/<userid>	Incomplete	
81	http://service/author/{AUTHOR_ID}/posts (all posts made by {AUTHOR_ID} visible to the currently authenticated user)	Incomplete	
4	US-4: As an author, posts I make can be in markdown (commonMark is good)	Incomplete	
9	US-9: As an author, I want to comment on posts that I can access	Incomplete	Can type comment into text field but not being saved to DB
11	US-11: As an author I should be able to browse the posts of others depending on my status	Incomplete	Feed doesn't show Friends posts
14	US-14: As a server admin, images can be hosted on my server.	Incomplete	Suggest making an Image model for this / images can be saved to server with django but not working for heroku
15	US-15: As an author, I want to befriend local authors	Incomplete	No friend model created in DB when accepting request
16	US-16: As an author, I want to befriend remote authors	Incomplete	
17	US-17: As an author, I want un-befriend local and remote authors	Incomplete	
18	US-18: As an author, my server will know about my friends	Incomplete	Should be a way to view friendships, friend requests visible but not friends
19	US-19: As an author, When I befriend someone it follows them	Incomplete	Friend request fulfillment not working
20	US-20: As an author, I want to know if I have friend requests.	Incomplete	Friend request page not updating after accepting request.
22	US-22: As an author, posts I create be private to another author	Incomplete	
23	US-23: As an author, posts I create be private to my friends	Incomplete	
24	US-24: As an author, posts I create be private to friends of friends	Incomplete	
25	US-25: As an author, posts I create be private to only friends on my host	Incomplete	
27	US-27: As an author, I want to feel safe about sharing images and posts with my friends –	Incomplete	
28	US-28: As a server admin, I don't want to do heavy setup to get the posts of my author's friends.	Incomplete	Friendship aspect not working, need efficient query
32	US-32: As an author, I want a consistent identity per server	Incomplete	
34	US-34: As a server admin, I want to share or not share posts with users on other servers.	Incomplete	
35	US-35: As a server admin, I want to share or not share images with users on other servers.	Incomplete	
39	US-39: As a server admin, I want to be able allow users to sign up but require my OK to	Incomplete	Manual or after verification checks on safe names?
70	Make a presentation about your blog	Incomplete	
72	Friend querying via POSTs to http://service/friend/userid	Incomplete	
75	Enforce some authentication	Incomplete	
77	FOAF verification involves the 3 hosts of the 3 friends A->B->C assuming A B C reside on different hosts.	Incomplete	
80	http://service/author/posts (posts that are visible to the currently authenticated user)	Incomplete	
82	Images get the same protection that posts get as they are POSTS	Incomplete	

Notes

Explore page still empty
How is feed sorted? New posts are appearing the middle of the feed
No indication of logged in status/user
No next/previous buttons
No indication of how many posts in feed, or how many per page etc.
If logged in, should logo go to your feed?
Manual pagination seems to work correctly
Account details still say "Need Data", remove hardcoded strings
why doesn'T SAVE button on edit account have floating hand on hover?
entire header logs you out from Edit Account page
Register page needs to show what's mandatory or not
Register page should have github option?
Links from edit post still broken (fixed in my branch)
Markup button does nothing
